

Information Disclosure Statement

The information disclosure statement filed 11 February 2010 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each separate Office Action from the Chinese, Korean and Canadian patent Offices.

The entry of these documents on a PTO-Form 1449 Information Disclosure Statement is improper, and these entries will not be initialed.

The MPEP specifically shows a proper PTO-Form 1449 Information Disclosure Statement at MPEP 609, pages 600-143 and 600-144 in the 5th Revised Edition. The content of these includes "U.S. Patent Documents," "Foreign Patent Documents," and "Non-Patent Literature Documents," and when citing the latter to include, the author, title of the article or item, date, pages, volume-issue, publisher and city of publication. These documents are clearly not US Patents, foreign patents and cannot be construed as being literature, and if so, are not cited in proper format, as required by the Form.
